

Executive Director

John Mendicino

John Mendicino comes to us with 30 years of healthcare leadership experience. He started his career at the West Penn Allegheny Health System in Pittsburgh Pennsylvania where he worked his way up to Director of Practice Management and was responsible for specialty practices, residency programs, financial/billing services, and special projects, e.g. wound care centers, physician offices, and a cadaver lab for residency education for the system.

John then joined Jordan Hospital in Plymouth, MA, first as the Director of the Physician Organization and then as Executive Director of Physician Associates and Outpatient Services, overseeing the physician organization, rehabilitation centers, and outpatient service departments for the hospital. John's next project took him to Texas as a consultant to form a podiatric mega group and residency education foundation: The Foot and Ankle Institutes of Texas and Greater Texas Education Foundation, which services over 20 hospitals and surgical centers in the Houston area.

Moving back to the Northern Virginia, he worked with two other mega groups: The Centers for Advanced Orthopaedics and Advanced Digestive Care. Prior to coming to CAENT, John worked for the Mid Atlantic Gynecologic Oncology & Pelvic Surgery Associates, where he negotiated professional services agreements with Inova and completed the design and build-out of a clinic as part of the newly created Inova Schar Cancer Center in Fairfax, Virginia.
